

Measuring Instructions

The Right Fit

Chilly Dogs Inc. has a wide array of sizes in three different categories: All Breed, Long & Lean and Whippet. To ensure your new Chilly Dogs coat fits your dog properly, please take the time to measure correctly. Our coats are not custom made to your dogs' specifications. However the measurements are used to help us determine if the best size of coat has been selected.

1. Use a soft tape measure or wide rope to take the measurements, not a hard straight ruler.
2. Your dog must be standing straight with head up. If your dog is lying down or sitting, his/her back dimension will be longer than the actual back length.
3. Measure from the base of the neck (just in front of the shoulder blades) to the base of tail. Do not measure from where the collar sits.
4. The coat length should be the same or longer by 1 to 2 inches as your dogs' back length.
5. View the [Sizing Guide](#) and [Breed Guide](#) to help you determine the best size of coat, sweater and head muff for your dog.
6. Don't choose a size that is several inches longer than your dogs back length. This will not give them more coverage, only create a sloppy fit.

A: Back Length

Start at the base of the neck just in front of the shoulder blades (not from the collar) and go to the base of the tail.

B: Chest Girth

Measure the girth or circumference of the chest at the thickest point.

C: Chest Width

Horizontal distance across the chest.

D: Neck Girth

Measure the neck girth or circumference at the base of neck.

Sizing Guide

Great White North * Trail Blazer * Rain Slicker

	Coat Size	Coat Length	Back Length	Chest Girth
